Have you had a loved one die recently?

Come and participate in a program of bereavement care at St. John's. Give yourself time to work through the natural process of grieving. In a safe and confidential environment, you will have an opportunity to discuss the effect of your loved one's dying and death.

Grief is a normal and natural reaction to death and the price we pay for loving, yet few of us are prepared for the long journey of grieving. The sessions will give you tools to help you during this difficult time.
